

C: Setting up for GitHub assignments

1. Create a folder on your computer for GH assignments

Example:

Documents/pai789

- Can be anywhere but remember where it is
- Only needs to be done once

2. Accept the assignment

1. Open a web browser and **log into GitHub**
2. Go to the **class web page** and click the exercise

3. **Accept** the assignment

4. **Check** repository has been created on GitHub:

Go to <https://github.com/maxwell-pai789/> or GH org link on class page
